Gary, thanks for the introduction.

Hi Jody -

It's nice to e-meet you. As Gary mentioned, our team is currently in the due diligence stage for a potential project in Callaway County. Part of this due diligence is to better understand how the County assesses data center developments. Do you have some time this week to meet and discuss a few things? I have CC'd our Tax Manager, Allen Storm, so he can join the virtual call as well.

Thanks

Hi Callaway County Commissioners -

I hope you all had a nice week. Please find attached the updated tax revenue estimates broken out by each taxing jurisdiction. These estimates are based on the requested terms: an 85% property tax abatement for a 25-year term, assuming the Ambulance and Fire District opts out of the Chapter 100 abatement. This will result in an estimated 438% annual increase to the School District's revenue and a 31% annual increase to the County's revenue.

Both attached files contain the same numbers, just formatted differently. We look forward to discussing this proposal in further detail on Monday and reviewing the potential community benefit projects you all provide.

Disclaimer: All tax revenue figures presented in this proposal are estimates only and are subject to change depending on market conditions, the requirements of the end-user tenant, the final design and configuration of the facility, the total capital investment deployed, and the application of Callaway County Assessor rules and assessment practices.

Thanks

Hi Commissioners,

As a follow-up to the provided tax revenue estimates included in my previous email, please find attached Crusoe's formal request letter for a Chapter 100 property tax abatement. Please feel free to contact me if you have any questions.

Thanks
