Jennifer,

I appreciate you taking the time to send your email. Please know that you have been heard. If you would like to discuss further the proposed Callaway project, I would welcome either a telephone discussion or an in-person chat. My contact info is all available in the email signature below.

Subject: Data Centers - New Bloomfield and Callaway County

Hi Chris,

I'm reaching out with strong concerns about Hyperscale Data Centers.

First, we must be VERY vigilant about ensuring MO and the US does not allow our precious farm land to be taken over - this is our future - food preservation. We certainly can't make more of it.

Most people that live in Callaway County are here to get away from NOISE, LIGHTS, Harmful Frequencies, WATER POLLUTION, and overall just want to go home set on our front porch and breath.

We've been fighting, and continue to fight, against the Farmland stolen out from under us by Solar Farm companies - these will be in my backyard. We do not want or need the money from these intrusive companies. I'll leave it at this, but I will provide a document you may find useful.

If you are further interested in how Callaway and New Bloomfield residents feel on this topic - I invite you to two Facebook pages:
