Subject: Re: Callaway County Community Improvements

Hi Commissioners -

Thank you for your time today and your willingness to continue openly communicating and partnering to find an agreeable solution for all parties.

Attached is the calculation for a 53% effective overall abatement rate (tab "effective rate") assuming a 25-year term at 0% real / 85% personal abatement, \$95.55M CBA payments and the fire and ambulance district opting out of the Chp 100.

As noted, using these assumptions, this project will still generate an estimated \$5.7B in total tax revenue for the county's various taxing entities.

Thanks
