Subject: Chp 100 Work Sheet - Callaway County

Hi Commissioners -

Please find attached the Chapter 100 work sheet that your bond counsel, Mark Grimm, asked us to prepare. Phase 1 represents the **base case** (one data center building) and Phase 2 represents the **best case** (three data center buildings). Please let us know if you need anything else at this time to do the cost-benefit-analysis.

Thanks

Subject: Re: Meeting Next Week

Commissioners, following up on our prior conversation to see when we may be able to meet this week (tomorrow or Friday) to advance our conversation on abatements and community benefits. As mentioned, understanding this will be critical to our ability to prepare for and host a successful open house on Tuesday, July 14. Ideally, we can join part of any conversation you have with Mark Grimm as needed.

Thank you,
Heather

DC Wish List.xlsx;

Curt,

Crusoe is asking for the list of community investments to be included in their displays for "Community Benefits" at the 7/14 event.

Review this list which Gary and I have worked over and provide your comments. I have reformatted the list a bit. The top section is what we are planning to ask for from Crusoe. The bottom list of items are items that were on the original list but are not yet included in the initial ask from Crusoe.

Provide your thoughts... let us know if there is anything that you have thought of that is not yet included... let me know if you have questions.

Crusoe would like an answer by EOD tomorrow (Thursday) to allow time for printed banners and materials for the 7/14 event.

Thank you.

Data Centers and Rivers_ Protecting Clean Water and River Health.pdf;

Dear Commissioners:

Thank you for your input into the June 15 forum covering data centers coming into Callaway County. It is great that real public outreach is occurring early in the process.

I came across this information about water usage concerns by data centers, and I thought I should share it with you. It might give some ideas for discussions with the developers of these sites.

I hope this information is useful. Good luck! I hope you can create a win-win for the citizens and the developers as these projects move forward in development.

Best regards,
Cathy Vogelweid

Hi Commissioners,

As a follow-up to the provided tax revenue estimates included in my previous email, please find attached Crusoe's formal request letter for a Chapter 100 property tax abatement. Please feel free to contact me if you have any questions.

Thanks

On Fri, May 8, 2026 at 2:41 PM Lucas Workman <lworkman@crusoe.ai> wrote:

Hi Callaway County Commissioners -

I hope you all had a nice week. Please find attached the updated tax revenue estimates broken out by each taxing jurisdiction. These estimates are based on the requested terms: an 85% property tax abatement for a 25-year term, assuming the Ambulance and Fire District opts out of the Chapter 100 abatement. This will result in an estimated 438% annual increase to the School District's revenue and a 31% annual increase to the County's revenue.

Both attached files contain the same numbers, just formatted differently. We look forward to discussing this proposal in further detail on Monday and reviewing the potential community benefit projects you all provide.

Disclaimer: All tax revenue figures presented in this proposal are estimates only and are subject to change depending on market conditions, the requirements of the end-user tenant, the final design and configuration of the facility, the total capital investment deployed, and the application of Callaway County Assessor rules and assessment practices.

Thanks

Subject: Crusoe Follow Up

Commissioners,

Hope that everyone is having a nice week so far. I am writing to introduce you to Lucas Workman, who was unable to join in our last meeting but is on Crusoe's economic development and government affairs team. He will be working with us on our efforts in Callaway County. He is planning to be in Missouri on April 14 (Tuesday), and if you are available, would welcome the opportunity to come by your office and introduce himself. He is also planning on meeting with Tamara Tateosian from the Chamber during his trip. Another option is to set that date for our stakeholder workshop, if you think we can get the larger group assembled. Let us know your thoughts on that - if that were the case, Conor and I would plan to be there for the larger meeting.

As discussed with Commissioner Jungermann, we are working on the logistics for a site visit and we will be back in touch shortly with more information. In the meantime, it would be great to get some dates that a tour would work for you in the next few weeks so that we can confirm a date with the site.

Lastly, we should be able to send a fact sheet to this group in the next few days to answer some of your early questions.

Best,
Heather

Subject: Tax Revenue Estimates

Hi Callaway County Commissioners -

I hope you all had a nice week. Please find attached the updated tax revenue estimates broken out by each taxing jurisdiction. These estimates are based on the requested terms: an 85% property tax abatement for a 25-year term, assuming the Ambulance and Fire District opts out of the Chapter 100 abatement. This will result in an estimated 438% annual increase to the School District's revenue and a 31% annual increase to the County's revenue.

Both attached files contain the same numbers, just formatted differently. We look forward to discussing this proposal in further detail on Monday and reviewing the potential community benefit projects you all provide.

Disclaimer: All tax revenue figures presented in this proposal are estimates only and are subject to change depending on market conditions, the requirements of the end-user tenant, the final design and configuration of the facility, the total capital investment deployed, and the application of Callaway County Assessor rules and assessment practices.

Thanks

Subject: RE: NAVIGATE MSA and Task Order 1

Commissioners, I just sent out the meeting invites to the architects based on Gary's feedback from Travis. Can you please forward the meeting invites to your staff that you would like to be a part of these interviews?

I will send an email with interview specifics to the architects for things they will need to know – please confirm below.

- We are going to meet at the main level conference room. In attendance will be the 3 commissioners, 1 person from the clerk's office, 911 director, EOC director, Craig Schluter w/ NAVIGATE, and David Lowell with NAVIGATE.
- Architect teams are to bring no more than 5 people to present.
- You will have 30 minutes to present, and then we will have 15 minutes of Q&A.
- You will be able to hook your laptop up to a TV monitor via HDMI.
- We will be issuing the Callaway County Draft Architect Contract to the design teams by EOD Friday. Please either include a PowerPoint slide of any comments you have regarding the contract or issue a handout. No other contract edits will be entertained beyond this deliverable if you are selected.

Any other key pieces of information you want them to know?

Thanks,

Craig Schluter

Team, good morning.

I wanted to let you know that we sent the draft contract to Travis late yesterday, as promised. I followed up with him this morning to see whether he can provide concurrence on our contract edits, or any comments, by mid-day Friday.

I have not heard back yet, but once I receive confirmation, you can expect the interview invitations to be sent out.

Thanks,

Craig Schluter

Subject: NAVIGATE MSA and Task Order 1
Importance: High

Gary and Curt, good morning.

Thank you for your time yesterday – we are sincerely excited about the opportunity to partner with Callaway County on this critical facility. Attached please find our Master Services Agreement, which I referenced yesterday, along with Task Order 1.

As a fee comparison, you'll note in the Lincoln County Emergency Services presentation I shared yesterday that our fee was \$462,124, yet we saved them nearly \$1.8M as documented. Your facility is starting a few years later than theirs, which accounts for staffing and salary increases, but your fee still comes in below what Lincoln County Emergency Services paid due to your facility being slightly smaller. Please don't hesitate to call if you have any questions or comments. I would also be glad to return to your office to walk through this in more detail if that would be helpful.

For the cooperative purchasing agreement sign up – here is the link - [TIPS-USA](#).

Side note – I reached out to Travis yesterday, and we will be sending him our draft architectural contract on Monday. He is prepared to assist but could not give us a time frame to get back to us because he has not seen the agreement and he has a lot of commitments this upcoming week. I'll follow up with him on Tuesday and see if he can get it back us with any comments by mid day Friday to allow for Architect interviews to occur on 6/10.

Thanks and have a great weekend!

Commissioners, following up on our prior conversation to see when we may be able to meet this week (tomorrow or Friday) to advance our conversation on abatements and community benefits. As mentioned, understanding this will be critical to our ability to prepare for and host a successful open house on Tuesday, July 14. Ideally, we can join part of any conversation you have with Mark Grimm as needed.

Thank you,
Heather

DC Wish List.xlsx;

Curt,

Crusoe is asking for the list of community investments to be included in their displays for "Community Benefits" at the 7/14 event.

Review this list which Gary and I have worked over and provide your comments. I have reformatted the list a bit. The top section is what we are planning to ask for from Crusoe. The bottom list of items are items that were on the original list but are not yet included in the initial ask from Crusoe.

Provide your thoughts... let us know if there is anything that you have thought of that is not yet included... let me know if you have questions.

Crusoe would like an answer by EOD tomorrow (Thursday) to allow time for printed banners and materials for the 7/14 event.

Thank you.

DC Community Improvements List 20260702.xlsx;

Hi Commissioners -

Thank you for your time today and your willingness to continue openly communicating and partnering to find an agreeable solution for all parties.

Attached is the calculation for a 53% effective overall abatement rate (tab "effective rate") assuming a 25-year term at 0% real / 85% personal abatement, \$95.55M CBA payments and the fire and ambulance district opting out of the Chp 100.

As noted, using these assumptions, this project will still generate an estimated \$5.7B in total tax revenue for the county's various taxing entities.

Thanks

Lucas, Heather, Conner,

Attached is the Callaway County Commission's list of requested community improvements to be funded by Crusoe. The list is prioritized for your review. If you wish to discuss further details of any of the items listed, I would be glad to provide background details that will enable better conversations during the public presentation on 7/14.

Thank you for your openness and your professionalism as we work forward in all of our negotiations.

Have a safe and happy July 4th weekend. 'Merica!

Heather, Conor,

I had a good discussion with Danielle Lawson and Jennifer Love today (FB: Callaway Data Watch). It was positive. Danielle expressed that the open house answered most of her questions. She did say that she still has some questions not answered or feels that she received answers that differed from what she felt like she heard from other community discussions.

Below are a couple topics on which she said she would like more detail:

1. Site studies
 - a.

She asked if there was a "Heritage Review" being performed. She referenced the MO Dept. of Conservation. Here is a link to their site.

<https://naturalheritagereview.mdc.mo.gov/>

This appears to be an unofficial site review that can be performed online to determine if the area of interest contains any plant or animal species considered to be a "sensitive natural resource". A full on-site review may be requested. Yes, we completed this as part of our site diligence. Nothing requiring further study was noted / no sensitive natural resources.

- Will any of the site studies performed (environmental, geological, etc) be made public? We have completed all of these reports (which inform both our site design and our decision to move forward at a given site). However, as we do not own the underlying parcel, our ability to access and complete diligence on the site is through an access agreement with confidentiality provisions. We therefore are unable to release these reports publicly as it would put us in breach of our confidentiality provisions.
- Discharge of treated water
 - a. What type(s) of water will be discharged from the site? There are 2 waste streams: septic (only from domestic sinks and toilets). This will be traditional spray or leach field. Cooling system: Collection and offsite disposal. This does not discharge to the site, it is collected.
 - b.

What is the expected discharge of the glycol-mix cooling fluids? What quantity? What frequency?

Most weeks, the glycol mix will be 0 gal discharge. Our engineering lead estimates that if there ever were repairs requiring discharge (possibly every few months), there may be a collection of 500 - 2,000 gallons. This really depends on operations and maintenance requirements.

- **How will discharged fluids be treated? Where will they be treated?**

The cooling system fluids will be collected by vacuum truck and hauled to a qualified disposal facility in a nearby city. The glycol mix will never be sent to storm, or septic, or disposed onsite by any other means

Thank you for your continued cooperation.
