Subject: Data Center money

If I understood correctly, in regards to the money being paid to the county (by the data center) there's somewhere in the area of 3.5 million dollars that is not allocated. Yesterday during the elections, I thought of something that could benefit a lot of Callaway County. Most all the little towns and burgs in Callaway County has a community hall. A lot of these halls are used as polling locations. Most of the halls are used throughout the year for numerous other community events. All the halls are old buildings which could use some work. Maybe compile a list of hall's and send \$20,000 +/- to each so they can fix their buildings.
